DIGITAL CHESHIRE

Scanning QR Codes Safely

What is a QR Code?

A QR code is a picture you can scan with your phone.

Why use a QR Code?

- Opens information quickly
- No need to type a website address
- Can open websites, forms and documents

How to scan:

1. Open your camera
2. Point it at the QR code
3. Tap the link that appears

Stay Safe

Only scan QR codes from people or organisations you trust.
Check the website address before sharing information.

Need Help?

Digital Cheshire can help you use QR codes and online services.
